

UC3 Merritt Webcast 2010-10-20

UC3 is developing a new DPR based on a "micro-services" approach, and we've reached a development milestone. We held a webcast for our partners on May 20. In this webcast, we'll explain our new approach, and demo the new repository, showing the ingest process and highlighting the new features. Our goal is to show you our development and to hear your thoughts on how we can improve our new system.

The webcast is available here:

<http://www.cdlib.org/uc3/merritt/webinars/20101020/>

The [presentation slides](#) are also available.

Here's the basic agenda:

Speaker	Subject	Starting Time
Stephen Abrams	Introduction	00:00
	Demo of Merritt service	23:00
	Summary	40:00
	Discussion	41:30
