

TRAC

The Trustworthy Repository Audit and Certification (TRAC) Checklist is a tool by which repositories measure their ability to fulfill their responsibilities to their clients and stakeholders. Based on the Open Archival Information System (OAIS) reference model, TRAC provides a comprehensive list of policies, processes and practices needed by a trustworthy repository to operate. The documentation that makes up a TRAC report serves as the basis for transparent communication with stakeholders of the repository's policies, practices and processes.

UC3 will be developing and providing documentation from the TRAC Checklist:

- [3. Organizational Infrastructure](#)
 - [3.1 – Governance & Organizational Viability](#)
 - [3.2 – Organizational Structure & Staffing](#)
 - [3.3 – Procedural Accountability & Preservation Policy Framework](#)
 - [3.4 – Financial Sustainability](#)
 - [3.5 – Contracts, Licenses, & Liabilities](#)
- [4. Digital Object Management](#)
 - [4.1 – Ingest – Acquisition of Content](#)
 - [4.2 – Ingest – Creation of the AIP](#)
